Uncopyable Steve Miller,2020-03-03 What separates average businesses from extraordinarily successful ones Better product Nope Your competitor will rapidly reverse engineer your secret sauce and get their better than you version on the market faster than you can say Usain Bolt Better customer service Guess what All of your competitors say they provide the best customer service It s a wishy washy phrase a vague generality with no meaningful specific Better pricing You re kidding right The company that lives on price dies on price Harsher reality Almost all industries today struggle with the increasing commoditization of their products and services putting considerable pressure on prices and margins leading to fiercer competition The Solution You must create an Uncopyable Attachment with your customers They must see you as not only

delivering a superior product but also as a high value relationship they simply cannot get anywhere else In Uncopyable Steve Miller compellingly argues that new advantage isn't found by going outside the box you must actually build your own box Uncopyable will guide you to achieving an unfair and enduring competitive advantage [De Gruyter Handbook of Media Technology and Innovation](#) Richard A. Gershon,2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It's about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward

Digital Technology: The World Of Our Own Binayaka Mishra,2022-05-12 Digital Transformation often referred as DX or DT IT modernisation for example cloud computing to digital optimization to the creation of new digital business models are all examples of digital transformation In general it refers to the use of digital technology to significantly enhance or create new business processes So what exactly is digital transformation for businesses It is the process of understanding consumer needs and using technology to enhance the end user experience End users may be either customers or workers and many businesses must consider both In the marketing department for example digital transformation may generate more high quality leads and help firms get closer to their customers while spending less money than traditional analogue marketing tactics Aside from experimenting with new technology digital transformation entails rethinking your current approach to common challenges A transition does not always have a clear finish since it is an evolution When it comes to the topic what is digital transformation the MIT Sloan Management Review a journal that focuses on management transformations noted Digital transformation is best viewed of as continuing adaptation to a constantly changing environment This implies that businesses must always seek methods to enhance the end user experience This might be accomplished via increasing on demand training migrating data to cloud services using artificial intelligence and other methods
