Mrs. Hiring Manager
CEO, The Cool Company
123 Address Street
Faketown, WI 12345

Dear Jane Doe,

I'm excited to submit my application for the Software Engineer position at the Cool Company I saw listed on your website.

With a B.S. in Computer Science and over 4 years of hands-on experience building programs, I'm confident that I'd be a strong addition to your team.

While working as a software engineer for Average-R-Ub, I gained experience coding in C#, Java, Python, and R – all skills I'm confident would be useful at The Cool Company which I recently read is expanding their Aerospace department.

I've demonstrated the ability to hit deadlines, maintain strong attention to detail, and lead tech teams when required. I'm confident my skills will be put to good use at The Cool Company, and I look forward to speaking with you further about the Software Engineer position.

I've also attached a resume that further explains my relevant skill set and experience.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Joe Dirt

Contact Details

Your cover letter intro should include your name, official email, phone number, and perhaps LinkedIn profile

The Salutation

It's always courteous to greet the hiring manager with an appropriate title

The Body

The body is where the bulk of the content lives. Try to convince the hiring manager why you are the best fit for the job

The Closing

Formally close out the letter

Cover Letter Review

Padhraic Smyth

Cover Letter Review:

Online Teaching and Learning Beverley E. Crane, 2016-12-01 Designed for experienced librarians librarians new to the profession and library school students Online Teaching and Learning A Practical Guide for Librarians provides a comprehensive framework that encompasses all aspects of planning designing creating implementing and assessing online learning for all types of libraries including public academic special and K 12 It also provides a valuable guide for teachers administrators and other educators Online Teaching and Learning A Practical Guide for Librarians features three main sections Section I Theory into Practice forms the basis in theory of learning that ultimately influences practice It includes definition importance in today s society benefits and challenges and categories and types of online learning with examples to illustrate each Section II Creating Online Instruction explores how to create an online course describing components and stepping through the process using a model on the topic of information literacy Design and instructional tips for creating other types of online instruction are also given Section III Practical Applications provides examples of different types of online instruction and materials in all types of libraries Then step by step detail explains how librarians can create this type of instruction and or learning materials on their own Included are worksheets handouts and exercises Online Teaching and Learning A Practical Guide for Librarians puts it all together to provide what the library must consider as it prepares for this new challenge and opportunity It provides a comprehensive guide instructing online programs how to employ library services as part of their program It is also designed to instruct librarians to incorporate the skills necessary to build a virtual library environment and teach the skills required to meet the needs of online learners As the educational landscape changes with blended and online learning taking center stage new and established librarians need a guide to inform them of skills they will need and show them how to create the resources for their new online audience *The Digital Technical Documentation Handbook*
