**iParent** Neha J Hiranandani,2024-02-05 Born into a digital wonderland, our children are practically mini hackers right from the crib. Most of them were handed a device before they could walk, they clicked before they took their first bite, and scrolled before they said their first words. But living online is a giant uncontrolled experiment. Cyberbullying, Internet addiction, body dysmorphia, and other digital villains lurk in the shadows. How can parents ensure their kids navigate the digital world safely when there's no rulebook? Neha J Hiranandani's *iParent* comes to the rescue. This book decodes India's app generation and elevates the discussion beyond these kids and their phones. Based on research, candid conversations, and personal reflection, this timely book is a witty meditation on parenting in a digital world. Hilarious and informative in equal measure, *iParent* empowers you to connect with the new generation and guide them to cyber safety without being a helicopter parent. No judgement, no preaching.

**The Significance of High Value in Human Behaviour** Chris Steed,2019-03-01 *The Significance of High Value in Human Behaviour* is an innovative conceptualisation of how the quest for a high self-worth works as a psychosocial dynamic, presenting the idea that feelings of impotence and low self-esteem induce a powerful impetus on negative human action. This book gives an account of what it means to base a whole psychological perspective on high value, which has been an understudied aspect of human action. Employing an ethnographical approach, the book uses client observations and social research to promote original solutions in an empathetic and engaging manner for psychological support services aiding isolated individuals. It considers the concept of a valuable self and examines the negative effects within the personality which

can be generated when this drive for a valuable self is blocked through human devaluation or violence The Significance of High Value in Human Behaviour will appeal to academics and post graduate students in the fields of psychology and psychotherapy psychotherapists with specialist interests in loneliness and self worth and sociologists concerned with the psychology of the self **Organizational Change** Gene Deszca, Cynthia Ingols, Evelina Atanassova, Tupper F.
