Impact of Micro Enterprises of SHG's on Poverty Alleviation Dr.A.MadhaviLatha, *Entrepreneurship and innovation in the age of digital transformation* Anna Ujwary-Gil,Anna Florek-Paszowska,Bianka Godlewska-Dzioboń,2021-11-01

PURPOSE Explore what entrepreneurship and success factors can help drive business to resilience and stability and achieve competitive advantage through innovation in different countries and business realities in the era of digital transformation and turbulent times

METHODOLOGY Based on the narrative literature review we present research findings concerning new strategies and outlooks for business innovation in times of many unknowns Each organization wants to find its way to gain success and create its unique business model which can capture value creation and innovativeness and be more adaptive resilient and stable in critical moments and sustainable over time

FINDINGS The articles presented in this issue explore the essential factors of business innovation and success in different organizations and the environments in which these businesses function

IMPLICATIONS FOR THEORY AND PRACTICE This article synthesizes the presented research field s importance and relevance connecting its theoretical background with practical research Recommendations and implications for future trends of this research stream might also be helpful for professionals and academicians

ORIGINALITY AND VALUE The novel studies presented in this issue were done in five different developing and developed countries and business sectors that present human based and non human based factors as crucial factors needed to empower business transformation in a complex world Each group of elements is essential in business success and their components are interdependent We need to look at the interactions and interdependencies of their components in a dynamic and network form and cannot simplify the reality focusing only on one group of business components and ignoring the other These unique studies provide a valuable outlook to establish dynamic adaptive business pathways towards a sustainable and resilient organizational future and propose future research paths needed to execute structural changes in businesses

Key Indicators for Asia and the Pacific ,2008

Landscape Gladys Lopez-Acevedo, Gordon Betcherman, Ayache Khellaf, Vasco Molini, 2021-03-20 This report sheds light on major labor market issues and challenges that Morocco faces. It is the first phase of the programmatic jobs program jointly undertaken with the government of Morocco. The report is a jobs diagnostic that analyzes microdata mainly from Labor Force Surveys and employs new analytical methods to identify the main trends in the labor market. The key challenges that emerge will provide the basis for a deeper analysis and policy formulation in the next phase of this program. Morocco's Jobs Landscape identifies four priorities: accelerate structural transformation to create more and better jobs in higher productivity sectors; encourage formalization and improve the quality of jobs; increase female labor force participation and address youth inactivity and its long-term consequences. Morocco has made significant economic progress over the past 20 years, which has raised the living standards of its people. However, Morocco's economic growth has not been labor-intensive enough to absorb its growing working-age population. It has had a low capacity to generate jobs, and the rate of job creation slowed after the 2008 financial crisis. Morocco is trying to overcome the middle income trap, which has been preventing its convergence with more affluent middle income countries. The government of Morocco has called for a new inclusive development model. The new model must address regional development imbalances, facilitate inclusion for youth and women, and continue to foster labor force skills upgrading. The COVID-19 pandemic and resultant safety measures have halted or slowed economic activity, which is worsening the labor market situation. The pandemic undoubtedly complicates prospects for jobs-led growth, and it will make the challenges highlighted in this report even more urgent and deserving of policy makers' attention. **Building**, 1929
