This is a companion version not the original book Sample Book Insights 1 When I presented the findings of my research to the V P of Sales he was quick to point out that good questions are equally as important in sales as good closes He explained that he had always stressed to new salespeople the importance of asking open ended questions 2 My colleagues and I had collected more compelling evidence against the traditional sales training methods We had studied 35 000 sales transactions and we d found that the techniques used by the company s top salespeople who were making high value sales no longer relied on such techniques as objection handling and closing 3 We could also convince Huthwaite that the companies he listed were teaching the traditional models of probing with open and closed questions overcoming objections and closing We helped several companies replace their traditional sales training with new and more powerful training 4 The traditional theories of selling suggest that the best way to sell is to find ways to relate to the buyer s personal interests and make initial benefit statements However our research shows that these methods are ineffective in larger sales **Selling** David J.
