**Activist Retail Investors and the Future of Financial Markets** Usman W. Chohan, Sven Van Kerckhoven, 2023-04-17 Contemporary financial markets have been characterized by sociocultural phenomena such as meme stocks the Gamestop short squeeze and You Only Live Once YOLO trading These are movements led by small scale retail investors banding together to participate forcefully in financial markets through decentralized but coordinated actions This book deploys many different subdisciplines to explore the recent power grabbing of retail investors and the online environment that enables them to join the ranks of major financial players and participate in contemporary capitalism It offers multiple perspectives on the genesis role motivations power and future prospects of retail investors as a force in contemporary financial markets Drawing upon the insights of authors hailing from many different countries the book frames YOLO capitalism through numerous angles that help to explain the context and the importance of activist retail investors in modern financial markets and thereby explore the possibilities of a transformed financial future with much wider small scale participation The book assesses the potential of online and other communities in enabling global coordination in impacting or even driving financial and crypto markets and the challenges that come with it and weighs the competing narratives both positive and negative regarding YOLO capitalism It strikes a balanced assessment of their legal cultural behavioural economic and political roles in modern finance This book will be of interest to a multidisciplinary and interdisciplinary audience of scholars in financial markets financial regulation political economy public administration macroeconomics corporate governance and the philosophy and the sociology of finance

**The ^AAI Mirror** Shannon Vallor, 2024-05-06 For many AI technology inspires hope for the future the promise of shared human flourishing and collective liberation from drudgery that defines the good life but always seems to elude our species Yet today s AI technology is forged from human generated data into immensely powerful but flawed mirrors that endlessly reflect the same errors biases and failures of wisdom we are striving to escape To open new futures for ourselves with these tools is as misguided as gazing into a mirror while trying to climb an uncharted mountain At this crucial juncture for humanity and our planet we need something new from AI and more importantly from ourselves We need to find new hope not to surrender our greatest moral and intellectual ambitions to machines that have none but to renew those ambitions collectively for ourselves Shannon Vallor makes a wide ranging prophetic and philosophical case for what AI could be and what we can be with it She calls us to reclaim our human potential for moral and intellectual growth rather than losing sight of our shared humanity as we gaze dully into our AI mirrors
