looking for purpose and making meaning and authenticity We spend a great deal of time at work and being at work is often a challenge Reference to the past in a corporate context tends to see it as a graveyard for errors and failures the future is something articulated by senior leaders and the place to which we are expected to travel in terms of their definition The specious present is the place where we experience our being in the moment the location where we do our work but it is rarely acknowledged in the places where we work This book offers new insights into how we can all meaningfully live our lives in the context of the world of work To do this it offers a personalised understanding of the existentialist way of philosophising It looks to simplify complex concepts in order to offer the reader a different way of thinking about the time that they spend at work and how they might consider different and more positive ways of being in such an environment It recognises that we spend a considerable amount of our life in the workplace and so argues that we need to consider that and find ways in which to make that experience personally meaningful Where other practices designed to help people to make sense of their actual experience are introspective existentialism is reflexive and active Similarly where those other approaches are deeply individualistic existentialism constantly reminds us that our choices are undertaken in relation to others and that they have a collective implication Whether you are keen to make sense of your experience of workplace and what it means to be a human being in that context or looking to explore how you embrace the challenges of being a leader in business this book will offer you rich perspectives for sense making and ways of rethinking your presence at work The Strategy Trap Kevin Ertell,2026-02-03 Most strategies don't fail on paper They fail in the real world where priorities shift teams misfire and execution breaks down In The Strategy Trap veteran operator and former Nike executive Kevin Ertell delivers a no nonsense guide to solving the problem every leader faces why great plans so often go nowhere Drawing on 30 years of experience leading execution at global brands like Nike Sur La Table Borders and Tower Records Ertell shares the hard won lessons that separate companies that move from vision to results and those that don't You'll learn how to avoid the traps that derail even the smartest strategies and how to build the systems habits and leadership practices that bring ideas to life At the core of the book is Ertell's practical field tested framework the Six Cs of Execution Co creation Clarity Capacity Communication Coordination and Coaching Whether you lead a small team or a global enterprise these principles will help you align people eliminate confusion and build lasting momentum This is not a book about how to craft a strategy It's about how to actually make one happen Inside you'll find A proven framework for execution that scales Real world case studies from operators on the front lines Common pitfalls that kill momentum and how to avoid them Practical tools you can use right away This book is for leaders who are tired of talking about strategy and ready to deliver on it Because in the end ideas don't change businesses Execution does **Crime Films of the 1970s** David A.
