Medical Malpractice Legislation Carlo Maria Masieri, 2024-05-08 This book aims to analyse the legal tools that the legislatures of France Germany and Italy adopted in order to regulate medical malpractice In the mid 1970s a reform movement started in the United States where there was considerable concern about then ongoing medical malpractice crises Since the beginning of the current century France Germany and Italy have passed statutes that aim to reform medical liability rules Thus it is first interesting to assess whether any medical malpractice crises have been identified in these systems and second how these have been faced through the passing of new statutes on the continent Accordingly the first chapter explores the idea of medical malpractice crisis and its relationship with the insurance market also considering the reflections of American scholars It then reconstructs the French German and Italian legal frameworks as well as their insurance and litigation contexts reviewing and commenting on the quantitative evidence that was collected before the reforms The second chapter briefly summarises the debate on medical malpractice reforms in France Germany and Italy It then analyses the statutes that have been passed distinguishing between reforms that consolidate case law and reforms that introduce innovative solutions sometimes repealing court developed doctrines In particular the chapter examines in a comparative perspective the different options adopted in these civil law countries with regard to the rules on liability burden of proof statute of limitations and damages Moreover the chapter examines the reforms of insurance procedural and evidence law to the extent they affect medical malpractice cases The third chapter reviews and analyses the current available data related to medical malpractice litigation and insurance after the reforms adopted in France Germany and Italy in order to find out evidence of their effectiveness and efficiency It also highlights some aspects of medical malpractice law that still belong to the domain of the judiciary It finally points out which problems may be addressed by the legislatures and what
