Ambition Redefined Kathryn Sollmann,2018-10-09 This is the playbook for how to get flexibility in your career Molly Beck author Reach Out and founder of MessyBun.com Critical advice for women when the traditional office job doesn't fit family life Meredith Bodgas Editor in Chief Working Mother magazine Sollmann advocates that we lean in to what she aptly labels one's own personal measure of success rather than a monolithic vision of the ideal career Whitney Johnson critically acclaimed author Build an A Team and Disrupt Yourself Thinkers50 Management Thinkers Ambition Redefined is a timely alternative to current women's business books that define professional ambition and success as climbing the corporate ladder In fact this is not a path that all women want or should

feel pressured to follow Sollmann's focus is on the more critical and widespread workplace issue for everyday women to always work in a way that fits their lives alongside their two major caregiving roles for children and aging parents. Sollmann debunks common assumptions such as IT'S NOT WORTH IT UNLESS THE SALARY IS HIGH. Women forfeit up to 4X their salaries every year out of the workforce to care for children and/or elderly parents and it does not take a six-figure salary to achieve long-term financial security. FINDING FLEXIBLE WORK IS IMPOSSIBLE. Sollmann shines a bright light on the ever-widening world of flexwork where women can find many interesting and exciting ways to tuck all generations of their families into a future that is financially secure and safe. The book includes realistic practical tools for preparing for and finding flexible work within a current job or a new opportunity. IT WON'T HAPPEN TO ME. Divorce, death of a spouse, or unexpected financial support for aging parents are some of the life you never knows that all women could experience. Divorce, death of a spouse, caring for aging parents, or adult children are some of the life you never knows that all women could experience. Sollmann encourages women to anticipate and buffer life surprises and she shows the profound impact of continual earning, saving, and investing toward a long and comfortable retirement. WORK ENDS AT AGE 65. Women who leave the workforce and want to return in their forties, fifties, or sixties will be in good company as the ranks of older workers rise. Over the next two decades, adults age 50 and over will have greater rates of workforce participation into their sixth and seventh decades. Eye-opening and practical, the book shows that when we redefine ambition, we acknowledge that challenging, lucrative work can be found in many flexible ways that favor personal satisfaction over public applause. *Datamation*, 1979-04
