Local government affects us all Wherever we live in towns cities villages or the smallest of communities there are locally elected councils tasked with representing people's interests in the running of the local area This involves inter alia providing public services maintaining local spaces and acting as a level of democratic governance within the broader constitutional and executive structure of the state To fulfil these responsibilities though local government must be democratically legitimate it must have at its disposal reasonable means and resources to function and it must enjoy a healthy and balanced relationship with centralised government This book explores and analyses the extent to which local government in the different parts of the United Kingdom is able to function effectively and democratically It draws from local councillors views in analysing the state of local government under the current constitutional and governmental arrangements discussing issues such as councils relationships with central government citizen engagement finance and public services and the impact of recent reforms It contrasts and compares the different approaches adopted in England Scotland Wales and Northern Ireland also setting out and discussing possible reforms of local government across the United Kingdom While the focus is on the United Kingdom the work includes a comparison with other relevant jurisdictions
