The online admission system project in PHP MySQL with source code is a web-based application that allows users to apply for admission to a school or university online. The system can be used by students.

The system enables students to fill out an online application form and submit it to the school or university. The form can be accessed from anywhere in the world and can be completed in a matter of minutes.

The online admission system project in PHP MySQL with source code is a great way for schools and universities to streamline their admissions process. It saves time and money by eliminating the need for paper applications and manual processing.
