Advertising Marketing Social Media grade 1 0 University of Applied Sciences M nchen language English abstract The aim of  
this thesis is to develop a measurement scale to determine the credibility of influencers in today s digitalized environment  
Thus an extensive literature review will be conducted to reveal underlying dimensions concepts and impact models of the  
social construct credibility Those examinations will provide a well founded overview of the current academic research in this  
field and will guide the author to the subsequent empirical investigation Aligning with the structure of key sources the  
researcher decided on a sequential exploratory research design consisting of a qualitative questionnaire which serves as

reliable foundation of the subsequent quantitative questionnaire. Thereby the qualitative survey aims to define and refine the items of the credibility scale, select exemplary influencers for the following rating process, and give the author a first feel about the respondents' perception of credibility. In contrast, the purpose of the quantitative survey is to collect an extensive amount of data (n = 385) to further select descriptor items that consumers associate with credible influencers and therewith build a reliable and valid base for further analytical calculations.

**No Explanation Required!: A Woman's Guide to Assert Your Confidence and Communicate to Win at Work** Carol Sankar, 2021-11-23. Smart communication strategies to help professional women break into the C suite and thrive when they arrive. With only 5.8% of CEO positions in the S P 500 held by women, it's clear that there are more women who deserve a seat at the table than actually have one. In **No Explanation Required**, Carol Sankar gives you the strategies you need to create the success you deserve today. As founder of the global leadership firm *The Confidence Factor for Women*, her goal is to ensure you deliver decisions and other communications with confidence, no explanations required. Loaded with real-life examples and backed by proprietary research, **No Explanation Required** coaches you on how to speak up for yourself, stop debating your decisions, and eliminate limiting language. In example after example, it becomes clear how these too-frequent expressions "I'm sorry," "Excuse me," "I'll get back to you" can strip you of your authority and credibility. Instead, you'll discover positive, practical ways to assert your confidence and master communication at work, with chapters that include *The Self-Promotion Gap*, *Perception and Performance*, *What's Like Got to Do with It*, and *The 8 Minute Rule* (how to create 8-minute micro-conversations and connections). Every chapter offers key takeaways you'll want to put into effect immediately and keep in mind always. With the tactics in **No Explanation Required** mastered, you'll be better equipped to stop explaining and start negotiating for gender parity, better compensation opportunities, and so much more.
