Politics Moves Online Michael Cornfield,2004 The popularization of the Internet has shepherded a revolution in business and personal communication But how has online technology been used in mainstream American politics In *Politics Moves Online* Michael Cornfield provides a comprehensive guide to how the Internet has been used in political campaigns He shows for example how candidates such as George Bush and John McCain in 2000 as well as political action committees and the media struggled to figure out how to fit the Internet into their ongoing operations Through a series of insightful cases he examines how candidates use the Web as a campaign

tool and as a fund raising mechanism and how voters use the Internet to gather information and become more knowledgeable voters He finds that while many political pundits have argued that the Internet can be a revolutionary force in politics citizens and politicians alike have yet to find innovative uses that go beyond conventional political operations **Business**

Interpersonal Culture on the Internet Sarah N. Gatson,Amanda Zweerink,2004 Community is a highly contested concept and in the milieu of mass media it is even more highly fraught The book is a community formation narrative adding to our common database of emergent community practice on the Internet The book bolsters our understandings of the substantive processes involved particularly those of boundary formation spatial dimensions of communities and how communities are always both embedded and emerging entities Finally it deals with the question of how seamless and or disruptive the new technology of the Internet is vis a vis our traditional practices of community formation and maintenance We are interested in a problem with communities based in media fandoms Eventually the artist will quit making music the movie will cease to have sequels or the television show will get cancelled What happens to these communities when their basis of interest goes away Is the bond of community enough to keep them together Why do people fracture into other groups Why do some hold on to the one for all all for one mentality chosen offline or do they stick by the friends they made in the community who would not ordinarily be their type In the last couple of years of working with this community the ways in which one gauges when a community ends and when it merely morphs into some other kind of interpersonal phenomenon have been at the forefront of our research The book is ethnographic in method and deals with community concepts such as networks geography boundaries and politics *European Policy Analyst* ,2000 Investors Chronicle ,2005
