Teaching English culture through CALL Oana Samson, Generally in language teaching the emphasis is on the development of four separate skills listening comprehension reading comprehension writing and speaking However language teachers and scholars often refer to a fifth skill which is culture It is difficult to imagine language teaching without referring in one way or another to the target culture therefore culture has always been present in the teaching process But what does this skill imply and how should it be included into the teaching learning process Compared to grammar or vocabulary culture is more difficult to define therefore it is not clear what and how it should be taught
