**The Sage Handbook of Chinese Digital Media and Communication** Jian Xu, Shaohua Guo, Weiyu Zhang, 2026-01-15

The Sage Handbook of Chinese Digital Media and Communication is the first comprehensive reference work dedicated to the fast evolving field of digital media and communication in China. Marking three decades since China's official connection to the internet, this landmark volume brings together leading scholars from across the globe to examine the profound transformations digital technologies have brought to Chinese society, politics, culture, and economy. Spanning activism, governance, labor, industry, everyday life, and research methods, the handbook offers a critical and interdisciplinary survey of the field. It explores how the internet and digital media have reshaped political participation, civil society, and national identity; how state regulation and surveillance intersect with innovation and platformization; and how digital labor, fandom, gaming, and e-commerce are redefining cultural production, consumption, and economy. It also reflects on the lived experiences of users from parenting and diaspora to queer communities and mobile rituals. Structured across five thematic parts, the volume not only maps the current landscape of Chinese digital media and communication but also interrogates the knowledge production that has shaped the field. It invites dialogue with global digital media scholarship and offers a timely reflection on the past, present, and future of China's digital transformation. The Sage Handbook of Chinese Digital Media and Communication is an indispensable resource for scholars, researchers, and students seeking a comprehensive understanding of the multifaceted landscape of Chinese digital media and communication. By examining past achievements, current trends, and future prospects, this collective effort establishes a foundation for advancing knowledge and fostering meaningful dialogues in this rapidly evolving field.

Part 1: Activism, Civil Society, and Politics  
Part 2: Technology, Regulation, and Governance  
Part 3: Platform, Labor, and Industry

platform capitalism how young people's experiences are disregarded in formal knowledge production and how the prevalence of digital teaching and learning contributes to issues of access and inequality Through a critical discursive approach Mathier demonstrates the need for literacy practices in postdigital education to interrogate the ways in which digital media and education are entangled in larger socio-political practices This book will appeal to students and scholars in critical discourse studies critical literacy studies digital communication education research and linguistic ethnography

**Impact of Influencer Marketing on Young Women's Customer Experience on Cosmetic Products** Jule Prescher, 2023-06-06  
Bachelor Thesis from the year 2023 in the subject Communications Multimedia Internet New Technologies grade 1-3  
University of applied sciences Cologne language English abstract This thesis aims to realize how influencer marketing performs and its impact on the Cx Therefore the research addresses the following questions How powerful are influencers these days What is different about influencer marketing and why is it a successful strategy How do people perceive information shared by influencers and which factors are decisive for potential customers to purchase products advertised by influencers What impact does an influencer have on the overall Cx The internet has been fully integrated into people's daily lives worldwide over the past years The percentage of the world's population with access to the internet has doubled from 32% in 2011 to 63% in 2021 90% of people from developed countries access the internet in 2021 At the same time the number of social network users is increasing These networks have the purpose of connecting with friends In 2022 5 billion people have access to the internet worldwide and 4.7 billion people use social media SM Ultimately 93% of those with internet access own at least one SM account that is more than half the population worldwide Through time companies found new marketing strategies which reached active people on SM These platforms are necessary to reach Generation Z people born in the late 1990s They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio for example Influencer marketing became a 10 billion industry in 2020 Influencers share their lives on SM networks Due to their high reach they receive offers from companies for cooperation Influencers' followers admire and trust their recommendations due to their personal and authentic representation While advertising products influencers show how to use them where to buy them and give their opinion For higher sales influencers often receive promo codes for a discount or free products for each order

Entertained or Else Tina Kendall, 2025-09-18 This book considers the complex and often contradictory relations that are forged between boredom and everyday media use in the twenty-first century and demonstrates how networked media have developed new technical means of capitalizing on boredom's state of suspension to make it into a source of value creation Focusing on the discursive technological and affective structures that encourage users to be entertaining and to remain entertained the book analyses how boredom has been increasingly instrumentalized as both an individual mood and a wider structure of feeling that drives participation across media networks It identifies the range of cultural techniques for codifying classifying sensing and pre-empting boredom as well as those that

teach users counter intuitively to embrace boring media as a means of coping with the intensities of always on existence However if boredom is positioned in a digital network culture as a feeling that keeps driving us back to our social media feeds it is important to ask how else it might operate While the technological affordances of computational media have put pressure on our ability to conceive of boredom as a radical challenge to digital capitalism this book attempts to think about the potential that might still be embedded in boredom s capacity to temporarily suspend or to neutralize dominant structures of attention and affect Building on the work of Giorgio Agamben Byung Chul Han Roland Barthes and from historical accounts of boredom and entertainment the book provides a new understanding of boredom in the context of networked media
