the 2022 edition of *The State of the World's Forests* SOFO explores the potential of three forest pathways for achieving green
recovery and tackling multidimensional planetary crises including climate change and biodiversity loss The three interrelated
pathways are halting deforestation and maintaining forests restoring degraded lands and expanding agroforestry and
sustainably using forests and building green value chains The balanced simultaneous pursuit of these pathways can generate
sustainable economic and social benefits for countries and their rural communities help sustainably meet increasing global
demand for materials and address environmental challenges *The State of the World's Forests 2022* presents evidence on the
feasibility and value of these pathways and outlines initial steps that could be taken to further pursue them There is no time
