The book introduces the conceptual notions behind generative models large language models LLMs and the neural networks that drive them. It delves into the mathematical and conceptual foundations of Generative AI transformer architecture and the practical applications of language and vision models. Further the book links the innovations to Industry 5.0 discussing digital twins predictive maintenance DevOps and cybersecurity in intelligent systems. It encompasses real world applications of AI in areas such as finance manufacturing and smart infrastructure. Case studies like the application of generative models in FinTech and blockchain adoption underscore how AI is already transforming business and society around the world. The book is perfect for students researchers and practitioners of AI data science and industrial systems interested in comprehending the theory and practical applications of Generative AI. It also benefits educators and policymakers who wish to lead in cutting edge technological advancements with emphasis on responsible secure and human oriented AI applications for a brighter future.

Flexibilities in Copyright Law Caterina

Sganga, Tatiana Eleni Synodinou, 2026-03-24 This book explores the intricated evolution of flexibilities in copyright law addressing some of the most pressing challenges the copyright balance has faced in the past decades. In the digital age copyright law's role as a regulatory framework has grown demanding even greater clarity and flexibility regarding access and use of protected works. EU harmonization efforts have added complexity by introducing detailed rules that impact the copyright balance. This book goes beyond the existing EU copyright framework to critically analyze its current state of the art and make policy recommendations for the future. The concept of copyright flexibilities is examined from various angles including rights definition subject matter and scope of protection copyright contracts enforcement exceptions and limitations exhaustion and the fair balance between copyright and fundamental rights. Instead of a fragmented approach the collection takes a holistic view of copyright flexibilities considering them as a multifaceted and intrinsic element of copyright law expressed through various mechanisms. Particular emphasis is put on technological economic cultural and societal trends which challenge established concepts in copyright policy. The book will be of interest to students and scholars in the field of copyright law in the EU and beyond.

Code Red Wynton Hall, 2026-03-17 You don't get to opt out of the AI revolution That decision has already been made for you

Breitbart social media director Wynton Hall asks what other decisions have been made Today 99% of Americans use AI even if most of us don't realize it Big Tech is quietly hard coding left wing ideology into the algorithms that now govern daily life The Left is already weaponizing AI while conservatives sleepwalk straight into calamity unless they're ready for what's coming

In *Code Red* Breitbart social media director Wynton Hall exposes where that power hides how it operates how conservatives can navigate the AI political battlescape avert its landmines and turn peril into promise AI decides what you see and what gets censored It's quietly rewiring our whole way of life Jobs Schools Family Church Even national security All of it will shock test our civic order

Inside *Code Red* you will discover Why AI is wired for woke indoctrination and how to resist it How elites plan to weaponize AI job losses to push dependency How America can beat China without becoming China How to prepare your kids for the blinding speed of AI disruption The new national security threats AI unleashes and how we defend against them Why AI girlfriends are luring millions and what it will take to preserve authentic human connection How AI will test faith and meaning and why spiritual renewal may be its most surprising outcome

Urgent deeply researched and written with page turner elegance *Code Red* is the conservative battle plan for the AI era Either we wake up and fight back or we lose everything that made America free
