Apex Courts and the Common Law Paul Daly, 2019-04-26 For centuries courts across the common law world have developed systems of law by building bodies of judicial decisions In deciding individual cases common law courts settle litigation and move the law in new directions By virtue of their place at the top of the judicial hierarchy courts at the apex of common law systems are unique in that their decisions and in particular the language used in those decisions resonate through the legal system Although both the common law and apex courts have been studied extensively scholars have paid less attention to the relationship between the two By analyzing apex courts and the common law from multiple angles this book offers an entry point for scholars in disciplines related to law such as political science history and sociology who are seeking a deeper understanding and new insights as to how the common law applies to and is relevant within their own disciplines

International Trade Law and Domestic Policy Jacqueline D. Krikorian, 2012-05-25 Critics of the World Trade Organization argue that its binding dispute settlement process imposes a neoliberal agenda on member states If this is the case why would any nation agree to participate Jacqueline Krikorian explores this question by examining the impact of the WTO s dispute settlement mechanism on domestic policies in the United States and Canada She demonstrates that the WTO s ability to

influence domestic arrangements has been constrained by three factors: judicial deference, institutional arrangements, and strategic decision making by political elites in Ottawa and Washington. By bringing the insights of law and politics scholarship to bear on a subject matter traditionally addressed by international relations scholars, Krikorian shows that the classic division in political science between these two fields of study, though suitable in the postwar era, is outdated in the context of a globalized world.

Law, Ideology, and Collegiality Donald R. Songer, 2012. In a groundbreaking study on the nature of judicial behaviour in the Supreme Court of Canada, Donald Songer, Susan Johnson, C. L. Ostberg, and Matthew Wetstein use three specific research strategies to consider the ways in which justices seek to make decisions grounded in good law and to show how these decisions are shaped within a collegial court. The authors use confidential interviews with Supreme Court justices, analysis of their rulings from 1970 to 2005, and measures that tap their perceived ideological tendencies to provide a critical examination of the ideological roots of judicial decision making, uncovering the complexity of contemporary judicial behaviour. Examining judicial behaviour through the lens of three different research strategies grounded in qualitative and quantitative methodologies, *Law, Ideology, and Collegiality* presents compelling evidence that political ideology is a key factor in decision making and a prominent source of conflict in the Supreme Court of Canada.
