

Student Loan Repayment

Choose a repayment plan

Setting up a payment plan may help you avoid missing a payment and could potentially save you money on interest [i]

ex. Auto-payments or Income-Based Repayment (IBR)

Look into loan consolidation

- Simplifies your repayment process by combining some loans into one bill
- May lower your monthly payments by giving you up to 30 years to repay your loans [ii]

Loan Deferment and Forbearance

- Allows you to temporarily postpone or reduce your payments
- If you qualify for deferment, you will not need to make payments during this time period.
- With forbearance, interest will still accrue on subsidized and unsubsidized loans.

Uncharted Waters Kenneth S Apfel, Michael J. Graetz, 2005-09-01 In the debate over Social Security reform most of the work on individual accounts has focused on how individuals would save and manage those accounts during their working lives Uncharted Waters goes further and addresses the often neglected questions about how and under what circumstances funds could be withdrawn from these accounts In Uncharted Waters a panel of recognized experts created a framework for determining how benefits might be paid if private accounts become a new part of the Social Security system or are created separate from Social Security This important volume analyzes the potential implications of different policy choices It considers the ramifications of payout rules for families at different stages of life particularly for economically disadvantaged groups The contributors also address how any new individual account program would fit with traditional Social Security employer based pensions and tax advantaged individual retirement savings 401 k s and IRAs As the debate over individual savings accounts rages Uncharted Waters offers a sound framework for informing public policy on both sides of the argument
