Science and Technology in 20th-Century American Life Christopher Cumo,2007-08-30 The twentieth century witnessed the greatest changes in technology and science that humans have ever witnessed These occurred rapidly and affected such a broad range of people Scientists inventors and engineers built upon the great inventions of the 19th century to expand the reach of modern technology for a citizen in 1900 communication transportation and agricultural was still primarily local activities by 2000 an American citizen was part of an interconnected global community These developments in science and technology were also important in the social and cultural changes of the period The Great Depression the World Wars and Cold War the civil rights and women s rights movements all were greatly impacted by the rapid scientific and technological advancements in the universities and industry

The Big Book of Useless Science Knowledge Neon Squid,2025-05-06 An encyclopedia of mind bogglingly random science facts that will lodge in your brain and refuse to leave Heard about the poisonous tree in the Amazon rainforest that grows exploding fruit Did you know that manatees control their buoyancy with farts Or that the first vending machine was invented in ancient Egypt In this compendium of obscure facts readers will be treated to baffling scientific knowledge they would never learn at school Broken into chapters including engineering space and biology a team of experts has scoured the margins to find the silliest and most pointless science facts that the world has to offer Accompanied by hilarious illustrations kids will meet the ants turned to zombies by a deadly fungus discover why astronauts left their poop on the Moon and find out about the rainstorm that lasted a million years before umbrellas were invented They will also learn completely useless information like that all of the hair on your head could hold the weight of two elephants SPOILER the information in this book isn t really useless It will inspire shock and amuse the reader and maybe spark an interest that will last a lifetime It just won t help you with any exams Written by experts Erin Winick Anthony has always loved making things whether it was Halloween costumes with her mom or LEGO towers in her living room That inspired her to get a mechanical engineering degree She now uses her technical background to translate complex science and space topics for the public Saad Bhatti is a geologist By day he brings the wonders of geoscience to life through captivating science animation videos By night he transforms into MrEarthGuy on TikTok and YouTube where he shares mind blowing facts about our planet When he s not unravelling Earth s mysteries you can find him exploring new ways to make science fun and engaging for everyone Dr Oluwapelumi Kareem is an organic chemist and science communicator who loves teaching science to anyone who will listen He is the owner of the education company At The Benchtop which makes learning kits and promotes science in diverse communities Ellen Weatherford is a science communicator who expresses her love for animals and nature by creating fun and informative content online When she s not making the podcast Just the Zoo of Us she s probably going on adventures with her kids playing video games or reading science fiction novels Matt Green also known as The Rapping Science Teacher is an entrepreneur and former school teacher He has over 1.4 million followers on social media

and has performed on ITV's *The Voice UK*, BBC One's *Blue Peter*, *The One Show* and BBC Radio 1Xtra. His ambition is to help as many students as possible to excel in science. Graham Lutz loves learning about everything. His brain supercharged by ADHD is always buzzing with cool facts. When he's not playing with his four kids, Graham writes books, gives talks, and helps people be their best. He studied how brains work at Harvard University and Georgia State University and now fills his own brain with fun, wacky knowledge to share with you.

The History of Science Fiction and Its Toy Figurines Luigi Toiati, 2023-12-21. This eye-opening book deserves a spot on the bookshelves of anyone who not only enjoys collecting but also has a great interest in all facets of the history of our hobby. Toy Soldier Collector: Science fiction, as the name suggests, is the combination of science and fantasy. In addition to a literary form, it also encompasses film, TV, comics, toys, and our beloved toy astronauts or other figures such as aliens, monsters, and other playable genres. The term science fiction was coined by publisher Hugo Gernsback around the first decades of the last century to refer to the predominantly space adventures covered in his magazines. Space invaded radio, cinema, TV, and consequently for a long time, toy figurines were predominantly space-related, later evolving into other themes. This lavishly illustrated book covers both the history of literary science fiction following in the footsteps of contemporary official criticism and toy figurines inspired by science fiction. You will also find several other themes such as the link between science fiction figures and cinema, radio, TV, comics, and more. Luigi Toiati offers to both guide the reader on an often nostalgic walk through science fiction in all its various forms and to describe the figurines and brands associated with it.
