World University Rankings and the Future of Higher Education Downing, Kevin, Ganotice, Jr., Fraide A., 2016-10-06 Delivering quality education to students while remaining competitive at an international level is only one of the many challenges universities face today To attain their goals universities must adopt new strategies to achieve academic excellence World University Rankings and the Future of Higher Education is a pivotal reference source for the latest scholarly research on the implementation of a ranking system for higher education institutions providing a thorough overview of the impacts of these rankings on educational quality Exploring the benefits and challenges of this system in a global context this book is ideally designed for academicians researchers students administrators and policy makers interested in the effects of university rankings in the education sector and beyond

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy

Quality Assurance and University Rankings in Higher Education in the Asia Pacific ,2009 Asian Scientists on the Move Anju Mary Paul, 2021-12-09 The growing scientific research output from Asia has been making headlines since the start of the twenty first century But behind this science story there is a migration story The elite scientists who are pursuing cutting edge research in Asia are rarely homegrown talent but were typically born in Asia trained in the West and then returned to work in Asia Asian Scientists on the Move explores why more and more Asian scientists are choosing to return to Asia and what happens after their return when these scientists set up labs in Asia and start training the next generation of Asian scientists Drawing on evocative firsthand accounts from 119 Western trained Asian scientists about their migration decisions and experiences and in depth analysis of the scientific field in four country case studies China India Singapore and Taiwan the book reveals the growing complexity of the Asian scientist migration system

The University under Pressure Elizabeth Popp Berman, Catherine Paradeise, 2016-02-26 Universities are under pressure Their resource environment is evolving demands for accountability have increased and demographic shifts are changing higher educational needs This volume provides a cross national picture of how the university as an organization is reacting to adapting to and threatened by a period of intense pressure

Reclaiming Public Universities Manisha Priyam, 2022-04-25 This book explores the nature of public universities and higher education reforms in emerging economies with a focus on India South Africa and Brazil

Drawing on context based case studies the essays in the volume highlight the state of public universities amongst the developing world with their shared colonial past and social caste and race inequalities Based on comparative and multidisciplinary studies the book provides a critical account of the policy reforms and changes on account of globalization and markets in higher education in public universities of the Global South regions The chapters also compare methodological approaches to university reform and restructuring of public universities and higher education systems in USA Australia the European Union and India and examine the California model the Bologna process the Melbourne model the University of Delhi reforms and engage critically with the New Public Management inspired reform policies The book further lays the groundwork for understanding massification in a contextual way and the possibilities for expansion of scale of mass higher education through public provision With its empirical findings and social theory analyses by global experts the volume will be of great interest to scholars and researchers of education higher education sociology and social anthropology development studies public policy and administration politics political economy and Global South studies It will also be useful to educationists policymakers and civil society organizations

UNESCO science report UNESCO,2015-11-09 There are fewer grounds today than in the past to deplore a North South divide in research and innovation This is one of the key findings of the UNESCO Science Report towards 2030 A large number of countries are now incorporating science technology and innovation in their national development agenda in order to make their economies less reliant on raw materials and more rooted in knowledge Most research and development R D is taking place in high income countries but innovation of some kind is now occurring across the full spectrum of income levels according to the first survey of manufacturing companies in 65 countries conducted by the UNESCO Institute for Statistics and summarized in this report For many lower income countries sustainable development has become an integral part of their national development plans for the next 10 20 years Among higher income countries a firm commitment to sustainable development is often coupled with the desire to maintain competitiveness in global markets that are increasingly leaning towards green technologies The quest for clean energy and greater energy efficiency now figures among the research priorities of numerous countries Written by more than 50 experts who are each covering the country or region from which they hail the UNESCO Science Report towards 2030 provides more country level information than ever before The trends and developments in science technology and innovation policy and governance between 2009 and mid 2015 described here provide essential baseline information on the concerns and priorities of countries that could orient the implementation and drive the assessment of the 2030 Agenda for Sustainable Development in the years to come
