Mobile Payment and Customer Behavior. Where does Germany stand? Adrian Demuth,2023-06-06 Essay from the year 2020 in the subject Business economics Investment and Finance grade 1 University of Applied Sciences Ludwigshafen course Finance und Economics language English abstract Mobile Payment represents a global trend of the future which is already commonplace in some countries This trend needs to be examined and analysed more closely Which effects does Mobile Payment have on the consumer and which problems might be the reason for the different acceptance and spread of Mobile Payment These questions are discussed in more detail in the following paper which deals with the topic of Mobile Payment and consumer behaviour Taking photos or videos checking for news chatting with friends while watching videos The role and the impact of smartphones and its mobile apps has changed more and more over the last years For most people it has become an indispensable tool While going out for shopping of groceries or clothes people nowadays just carry their most important things with them These are often their keys wallets and smartphones But the number of these things could decrease further in the next few years due to the technological developments of the smartphone For example unlocking smart locks via Bluetooth enabled smartphones or regarding the elimination of the wallet the development of Mobile Payment systems The Smartphone is the central medium of the future which will have to bridge the gap between easy usability and secure and fast processes Especially concerning Mobile Payment which represents a new way of paying via smartphone New providers are offering payment methods and a changed purchasing behaviour of end customers increasingly determines the product landscape and the market shares of these payment systems Interestingly however Mobile Payment is a very controversial topic The controversy can already be seen here if one briefly looks at the global spread and acceptance of Mobile Payment While in Germany currently only about 25% of all people are users of Mobile Payment 71% of all people in Chinese use Mobile Payment systems

Global Meets Digital Vinod Jain,2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global

business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta

Clean Winners Goutam Challagalla, Frederic Dalsace, 2026-03-24 Despite massive investments sustainable business still isn't very profitable for most companies Here's a fresh approach for resetting sustainability for customer value and profitability Store aisles packed with products labeled environmentally friendly Businesses scrambling to respond to stakeholder demands that they make their operations sustainable Ads touting green credentials for all kinds of enterprises For a long time now this has been the market landscape we've lived in with companies such as Unilever leading the way and creating pressure for others to follow suit But the uncomfortable truth is that after years of investment in sustainable products and services most companies still aren't seeing the payoff not financially not in value for customers and not in real environmental and social impact Why not As IMD professors Goutam Challagalla and Fr d ric Dalsace show in this eye opening and practical book the shortfall is due to a strategic misalignment and a misunderstanding of what actually drives customers purchase decisions The authors flip conventional sustainability strategy on its head instead of companies asking How can we make our offerings more sustainable they should be asking How can we use sustainability as a catalyst to improve the performance of our products make them more affordable or both Viewed this way sustainability is an intrinsic value generating element of an offering rather than a costly add on The authors call companies that understand this insight John Deere Michelin Schneider Electric

Nespresso Reckitt and others clean winners or Resonators With wide ranging and instructive stories they show how Resonators use sustainability to increase customer value and generate robust profits Offering practical frameworks tools and tactics Clean Winners is your essential guide to reimagining your sustainability strategy **The AI Book** Ivana Bartoletti, Anne Leslie, Shân M.
