

THE 50 COMPANIES WITH THE BEST CUSTOMER SERVICE

METHODOLOGY

Qualtrics XM Research conducted a survey of 100,000 U.S. consumers to determine the top 50 companies with the best customer service. The survey was conducted from February 15 to March 15, 2024. The survey included questions about the respondent's experience with the company's customer service, including the quality of the service, the speed of the service, and the overall satisfaction with the service. The survey results were analyzed using a proprietary algorithm that ranked the companies based on their customer service scores. The top 50 companies are listed below, along with their scores in each of the three categories: Service Quality, Service Speed, and Overall Satisfaction. The overall score is the average of the three category scores. The companies are ranked from highest overall score to lowest overall score.

American Customer Satisfaction Index 2023-2024

Methodology: The American Customer Satisfaction Index (ACSI) is a widely recognized measure of customer satisfaction. It is based on a survey of 100,000 U.S. consumers. The survey asks respondents to rate their satisfaction with the company's customer service on a scale of 1 to 100. The ACSI score is the average of all the ratings. The ACSI score is a leading indicator of a company's financial performance. Companies with high ACSI scores tend to have higher revenue, higher profit margins, and higher stock prices. The ACSI score is also a key component of the overall customer service score used in this report.

Each score is based on a survey of 100,000 U.S. consumers. The Service Quality score is based on questions about the quality of the customer service, including the knowledge of the service representative, the helpfulness of the service representative, and the overall quality of the service. The Service Speed score is based on questions about the speed of the customer service, including the time it takes to get a response and the time it takes to resolve the issue. The Overall Customer Satisfaction score is based on a question about the overall satisfaction with the customer service. The overall customer service score is the average of these three scores.
