Lee Kuan Yew From Third World To First:

From Third World to First: The Singapore Story, 1965-2000 Lee Kuan Yew, 2012-09-15 Few gave tiny Singapore much chance of survival when independence was thrust upon it in 1965 Today the former British trading post is a thriving Asian metropolis with one of the world's highest per capita income The story of that transformation is told here by Singapore's charismatic controversial founding father Lee Kuan Yew From Third World To First continues where the best selling first volume The Singapore Story left off and brings up to date the story of Singapore's dramatic rise It was first published in 2000 Delving deep into his own meticulous notes and previously unpublished papers and cabinet records Lee details the extraordinary efforts it took for an island city state in Southeast Asia to survive with just a razor's edge to manoeuvre in as Albert Winsemius Singapore's economic advisor in the 1960s put it We read how a young man of 42 and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the long hard work of building a nation creating an army from scratch stamping out corruption providing mass public housing and masterminding a national airline and airport Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights democracy and inherited intelligence aiming always to be correct not politically correct Nothing about Singapore escaped his watchful eye whether choosing shrubs for roadsides restoring the romance of historic Raffles Hotel or persuading young men to marry women as well educated as themselves Today's safe tidy Singapore certainly bears his stamp but as he writes If this is a nanny state I am proud to have fostered one *From Third World to First* Lee Kuan Yew, 2000-10-03 Few gave tiny Singapore much chance of survival when it was granted independence in 1965 How is it then that today the former British colonial trading post is a thriving Asian metropolis with not only the world's number one airline best airport and busiest port of trade but also the world's fourth highest per capita real income The story of that transformation is told here by Singapore's charismatic controversial founding father Lee Kuan Yew Rising from a legacy of divisive colonialism the devastation of the Second World War and general poverty and disorder following the withdrawal of foreign forces Singapore now is hailed as a city of the future This miraculous history is dramatically recounted by the man who not only lived through it all but who fearlessly forged ahead and brought about most of these changes Delving deep into his own meticulous notes as well as previously unpublished government papers and official records Lee details the extraordinary efforts it took for an island city state in Southeast Asia to survive at that time Lee explains how he and his cabinet colleagues finished off the communist threat to the fledgling state's security and began the arduous process of nation building forging basic infrastructural roads through a land that still consisted primarily of swamps creating an army from a hitherto racially and ideologically divided population stamping out the last vestiges of colonial era corruption providing mass public housing and establishing a national airline and airport In this illuminating account Lee writes frankly about his trenchant approach to political opponents and his often unorthodox views on human rights democracy and inherited

intelligence aiming always to be correct not politically correct Nothing in Singapore escaped his watchful eye whether choosing shrubs for the greening of the country restoring the romance of the historic Raffles Hotel or openly unabashedly persuading young men to marry women as well educated as themselves Today s safe tidy Singapore bears Lee s unmistakable stamp for which he is unapologetic If this is a nanny state I am proud to have fostered one Though Lee s domestic canvas in Singapore was small his vigor and talent assured him a larger place in world affairs With inimitable style he brings history to life with cogent analyses of some of the greatest strategic issues of recent times and reveals how over the years he navigated the shifting tides of relations among America China and Taiwan acting as confidant sounding board and messenger for them He also includes candid sometimes acerbic pen portraits of his political peers including the indomitable Margaret Thatcher and Ronald Reagan the poetry spouting Jiang Zemin and ideologues George Bush and Deng Xiaoping Lee also lifts the veil on his family life and writes tenderly of his wife and stalwart partner Kwa Geok Choo and of their pride in their three children particularly the eldest son Hsien Loong who is now Singapore s deputy prime minister For more than three decades Lee Kuan Yew has been praised and vilified in equal measure and he has established himself as a force impossible to ignore in Asian and international politics From Third World to First offers readers a compelling glimpse into this visionary s heart soul and mind

Singapore Politics Under the People's Action Party Diane K. Mauzy, Robert Stephen Milne, 2002 The party has coped successfully with the needs of a multiethnic population claims for more extensive human rights the nascent development of a civil society and the problems of defending a small country in a turbulent region

The Singapore Story: From Third World to First, 1965-2000 Kuan Yew Lee, 1998

A History of the People's Action Party, 1985-2021 Shashi Jayakumar, 2022 The People s Action Party or PAP of Singapore is among the longest ruling democratically elected political parties in the world in power continuously since Singapore gained self rule in 1959 Such longevity is the hallmark of an institution that is itself dynamic and responsive But remarkably the story of the party as an institution has not received the sustained study it deserves from historians or political scientists This narrative history of the PAP follows the decisions made by party leaders as they have sought to respond to the changing demands and expectations of the Singapore electorate over a 36 year period that saw Singapore enter the ranks of developed nations It is fully up to date with the Party s response to their loss of seats in the 2020 General Elections and changes in party leadership succession announced in April 2021 Leadership renewal is one of four dimensions of change in the party that are the book s focus the others being the party s communications methods and styles the mechanisms developed for managing institutional change and the evolution of economic and social policy Drawing on internal party documents and multiple interviews with key leaders over a 10 year period this work provides a detailed portrait of a robust political institution and establishes a distinctive new narrative of Singapore politics publisher s website

building by focusing on two processes elite formation and elite selection It gives primary attention to the role that ethno racial ascription plays in these processes but also considers the input of personal connections personal power class and gender It is a study of the progress of Singapore s state sponsored nation building project to its current state whereby a Singaporean version of Chinese ethno nationalism has overwhelmed the discourse on national and Singaporean identity Based upon archival research and formal interviews this study unpacks the culture of elite governance in Lee Hsien Loong s Singapore today

Health Insurance Reforms in Asia Sabrina Luk,2014-03-26 This book empirically examines health care financing reforms and popular responses in three major cities in East Asia Shanghai Singapore and Hong Kong It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades It also examines forces that propel institutional change The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them It shows that health care systems in Shanghai Singapore and Hong Kong were the products of Western presence in the nineteenth century It illustrates how greater attention is paid to the roles played by ideas actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms It shows that health care financing reform is shaped by a complex interplay of forces over time It also provides the most updated material about health care financing reforms in Shanghai Singapore and Hong Kong The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests It shows that institutional changes in health care financing system can be incremental but transformative in nature It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change
