expertise However a structured method for determining the appropriate degree of automation defining the division of tasks between humans and AI for each decision is still lacking Thus this thesis develops a framework to determine the optimal level of Human AI collaboration for production management use cases This framework enables organizations to leverage AI effectively across various scenarios complementing human expertise to enhance operational efficiency and decision making processes By offering a systematic method the framework helps avoid suboptimal AI ML deployments and supports organizations in harnessing hybrid intelligence for innovative and future ready production management

All Abraham's Children Armand L. Mauss,2010-10-01

All Abraham s Children is Armand L Mauss s long awaited magnum opus on the evolution of traditional Mormon beliefs and practices concerning minorities He examines how members of the Church of Jesus Christ of Latter day Saints have defined themselves and others in terms of racial lineages Mauss describes a complex process of the broadening of these self defined lineages during the last part of the twentieth century as the modern Mormon church continued its world wide expansion through massive missionary work Mauss contends that Mormon constructions of racial identity have not necessarily affected actual behavior negatively and that in some cases Mormons have shown greater tolerance than other groups in the American mainstream Employing a broad intellectual historical analysis to identify shifts in LDS behavior over time All Abraham s Children is an important commentary on current models of Mormon historiography
