The Public Archaeology of Treasure Howard Williams, Samuel Clague, Peter Reavill, 2022-09-01 Select proceedings of the 5th University of Chester Archaeology Student Conference 31 January 2020 reflect on the shifting and conflicting meanings values and significances for treasure in archaeology s public engagements interactions and manifestations The Oxford Handbook of Public Archaeology Robin Skeates, Carol McDavid, John Carman, 2012-01-05 Divided into four distinct sections and drawing across various disciplines this volume seeks to reappraise the place of archaeology in the contemporary world by providing a series of essays that critically engage with both old and current debates in the field of public archaeology

Competing Values in Archaeological Heritage Stuart Campbell, Liz White, Suzie Thomas, 2018-09-22 Archaeological heritage legislation aims to ensure the best possible protection for the archaeological heritage yet it remains the case that legislation can remain ineffective through other practical considerations Some consideration may be legal or procedural such as difficulties in enforcing legislation or in preventing crimes or damage or archaeological monuments However other problems may be less obvious and harder to address and require solutions which go much further than the simple application of the law The aim of this volume is to address several issues surrounding the management of archaeological heritage comparing and contrasting which laws work and which ones do not and ignoring other issues which might effectively present the transplantation of an ideal system to another country or political climate Or the cultural attitudes which might prevent a law working in the legal system for which it was designed The contributions are from various international jurisdictions and address a variety of subjects from the protection of archaeological monuments to dealing with and controlling chance finds made by members of the public Transnational Crime Valsamis Mitsilegas, Saskia Hufnagel, Anton Moiseienko, Shi Yanan, Liu Mingxiang, 2018-10-09 This volume offers a diverse set of perspectives on transnational crime Providing a wide ranging overview of the legal and policy issues that arise in connection with various forms of transnational crime the authors outline the criminal justice responses adopted across different jurisdictions Including contributions from high profile Chinese and European academics and practitioners across a variety of disciplines and methodological backgrounds the authors address some of the hitherto underexplored issues related to transnational crime These range from trafficking in cultural objects derived from illicit metal detecting and metal detecting tourism in China to the European approaches to criminalising the denial of historical truth The central theme of the book is that useful lessons can be drawn from each other s experiences and that a cross fertilisation of domestic approaches to transnational crime is essential to effective cooperation This book will be of use to students and academics of comparative criminal justice and anyone interested in transnational crime

Coinage in the Northumbrian Landscape and Economy, C.575-c.867 Tony Abramson, 2018 This book presents the author s digitization of Pirie s corpus of 9th century Northumbrian stycas This database enhanced by data from elsewhere is compared by location with the artefactual database known as VASLE created

at the University of York 2008 to demonstrate that the co occurrence of coins and portable artefacts defines monetary evolution in Northumbria Additionally the author presents a new periodization and reveals the previously disparaged gold shillings of York to have been issued by Bishop Paulinus a disruptive finding chronologically with wider consequences Northumbria benefited increasingly both monetarily and fiscally as the face value of coins fell Other conclusions include the idea that Northumbrian coin production was erratic that the Yorkshire Wolds were more highly monetized than the surrounding lowlands indicating a more enterprising culture that styca hoards represent episcopal expropriations and that there were significant changes in settlement and economy in the central lowlands This work demonstrates that monetization reflected northern independence innovation and enterprise Back cover page 4 of cover
