College Credit for Writing in High School Kristine Hansen, Christine Farris, 2010. Edited by Kristine Hansen and Christine R Farris. This collection explores various options that students have for taking care of the first year college writing requirement including AP tests, concurrent enrollment, dual credit courses, the International Baccalaureate diploma, and early college high schools. The first year college writing requirement is a time honored tradition in almost every college and university in the United States. Many high school students seek to fulfill this requirement before entering college through a variety of programs such as Advanced Placement tests, concurrent enrollment programs, the International Baccalaureate diploma, and early college high schools. The growth of these programs raises a number of questions including: Is this kind of outsourcing of instruction to noncollege providers of educational services something to be resisted or embraced? What are the possible benefits and detriments to students, their parents, their teachers, and the educational institutions? What standards should be met with respect to student readiness, teacher preparation, curricular content, pedagogical strategies, and learning outcomes? How can we create a seamless K-14 educational system that effectively teaches writing to students in the transition from adolescence to adulthood? Contributors to this volume including high school teachers, professors at community colleges and universities, and administrators at both the secondary and postsecondary levels explore the complexity of these issues, offer best practices and pitfalls of such a system, establish benchmarks for success, and lay out possible outcomes for a new educational landscape.

From Immigrants to Americans Jacob L. Vigdor, 2010-01-16

Immigration has always caused immense public concern, especially when the perception is that immigrants are not assimilating into society the way they should or perhaps the way they once did. Americans are frustrated as they try to order food, hire laborers, or simply talk to someone they see on the street and cannot communicate with them because the person is an immigrant who has not fully adopted American culture or language. But is this truly a modern phenomenon? In *From Immigrants to Americans*, Jacob Vigdor offers a direct comparison of the experiences of immigrants in the United States from the mid-19th century to the present day. His conclusions are both unexpected and fascinating. Vigdor shows how the varying economic situations immigrants come from has always played an important role in their assimilation. The English language skills of contemporary immigrants are actually quite good compared to the historical average, but those who arrive without knowing English are learning at slower rates. He continues to argue that today's immigrants face far fewer incentives to assimilate and offers a set of assimilation-friendly policies. *From Immigrants to Americans* is an important book for anyone interested in immigration, either the history or the modern implications, or who want to understand why today's immigrants
