Universitychandrakindle55 gmail com Bank Reconciliation Statement - English Navneet Singh, Bank reconciliation is a
process used by businesses to ensure that their internal records of transactions match the transactions recorded by their
bank This process involves comparing the company s financial records such as cash receipts disbursements and other
transactions with the information provided in the bank statement Here s how the bank reconciliation process generally works
Gather Documents Collect the company s records of transactions including cash receipts disbursements deposits checks
issued and other relevant documents as well as the bank statement provided by the bank Start with the Bank Statement
Balance Begin by noting the ending balance as per the bank statement for the period you re reconciling This is the balance

provided by the bank and includes all transactions processed by the bank during the statement period List Outstanding Checks Identify any checks that have been issued by the company but have not yet cleared the bank These are termed outstanding checks Record the total amount of outstanding checks List Deposits in Transit Similarly identify any deposits that have been made by the company but have not yet been recorded by the bank These are termed deposits in transit Record the total amount of deposits in transit Adjust Bank Statement Balance Subtract the total amount of outstanding checks from the bank statement balance and add the total amount of deposits in transit This adjustment reflects the transactions that have been recorded by the company but not yet processed by the bank Adjust Company s Records Now compare the company s records with the adjusted bank statement balance Make adjustments for any transactions recorded by the company but not yet reflected in the bank statement such as bank fees interest earned or direct deposits Reconcile Balances Once adjustments are made to both the bank statement balance and the company s records compare the two balances They should match If they don t investigate the discrepancies Investigate Discrepancies Any differences between the bank statement balance and the company s records need to be examined Common reasons include errors in recording transactions bank errors or fraudulent activities Resolve Discrepancies Take appropriate actions to rectify the discrepancies This might involve updating the company s records contacting the bank to correct errors or adjusting financial statements accordingly Prepare Reconciliation Report Finally document the reconciliation process in a bank reconciliation report This report summarizes the adjustments made and provides an explanation for any discrepancies found during the process Regular bank reconciliation helps ensure the accuracy of financial records detect errors or fraud and maintain control over cash flow It s an essential practice for businesses of all sizes to manage their finances effectively
