The Dark Side of Social Media Pavica Sheldon, Philipp Rauschnabel, James M. Honeycutt, 2019-07-06 The Dark Side of Social Media Psychological Managerial and Societal Perspectives examines how social media can negatively affect our lives. The book tackles issues related to social media such as emotional and mental health, shortened attention spans, selective self-presentation, and narcissism, the declining quality of interpersonal relationships, privacy and security, cyberstalking, cyberbullying, misinformation, and online deception, and negative peer effects. It goes on to discuss social media and companies, loss of power, challenging control mechanisms, and societies as a whole, fake news, chatbots, changes in the workplace. The Dark Side of Social Media Psychological Managerial and Societal Perspectives empowers readers to have a more holistic understanding of the consequences of utilizing social media. It does not necessarily argue that social media is a bad development but rather serves to complement the numerous empirical findings on the bright side of social media with a cautionary view on the negative developments. Focuses on interpersonal communication through social media. Focuses on psychology of media effects. Explores social media issues on both an individual and societal level. Documents the rise of social media from niche phenomenon to mass market. Examines the differences between creating and consuming content. Early Childhood Education and Care in a Global Pandemic Linda Henderson, Katherine Bussey, Hasina Banu Ebrahim, 2022-06-23 Early Childhood Education and Care in a Global Pandemic is a book that highlights how the international early childhood education and care sector responded to the global COVID 19 pandemic. It shows the resiliency of the sector around the world as it grappled with a rapidly changing environment of uncertainty and complexity. Drawing on a diverse range of early childhood education and care contexts, the book captures real life examples of how COVID 19 impacted children, educators, and teachers, and families. Chapters present cases of the particular challenges that COVID 19 presented in a wide range of countries and then how they responded to these challenges, challenges that tested the resilience of children, educators, and teachers, and families. By forward anchoring each chapter, it examines the opportunities that arose from these challenges and how new local knowledge was produced as new ways were found to support children, educators, and teachers, and families during this time. This book offers early childhood education and care a timely resource on lessons learnt from a once in a lifetime event. It offers the sector a way forward to commit to developing new ways of thinking and working that stem from the lessons learnt during the COVID 19 pandemic. **Oxford Textbook of Public Mental Health** Dinesh Bhugra, Kamaldeep Bhui, Samuel Yeung Shan Wong, Stephen E. Gilman, 2018-09-13 Prevention of mental illness and mental health promotion have often been ignored in the past, both in undergraduate and postgraduate curricula. Recently, however, there has been a clear shift towards public mental health as a result of increasing scientific evidence that both these actions have a serious potential to reduce the onset of illness and subsequent burden as a result of mental illness and related social, economic, and political costs. A clear distinction between prevention of mental illness and mental health promotion is critical.

Selective prevention both at societal and individual level is an important way forward The Oxford Textbook of Public Mental Health brings together the increasing interest in public mental health and the growing emphasis on the prevention of mental ill health and promotion of well being into a single comprehensive textbook Comprising international experiences of mental health promotion and mental well being chapters are supplemented with practical examples and illustrations to provide the most relevant information succinctly This book will serve as an essential resource for mental and public health professionals as well as for commissioners of services nurses and community health visitors
