## **Behavioural Finance:**

BEHAVIOURAL FINANCE SINGH, RANJIT, 2019-09-01 Behavioural Finance is a comprehensive textbook intended especially for the management students. It has been designed to polish their decision making skills in the context of finance and investment decisions. The book provides a balanced presentation of theoretical concepts of behavioural finance and their practical orientation. This book emphasises the application of concepts through case studies and suitable examples in local context. The textbook deals with the concepts of behavioural finance along with its specialised sub areas. Apart from providing a basic understanding of the concepts in behavioural finance, the book extensively covers the new developments in the area of behavioural finance. Recent researches in different sub areas of behavioural finance are also given in the Learning Centre section on our website [www.phindia.com](http://www.phindia.com) for the benefit of budding scholars. Each chapter starts with a quotation to sensitise readers with the theme of the chapter. To facilitate the understanding of concepts in behavioural finance, the text in each chapter is interspersed with suitable examples. In every chapter, real life case studies are given which again make the book very lucid and understandable. Besides the learning objectives and introduction that unfold the chapter, the summary at each chapter end to provide an eagle's eye to the topics discussed are also given. With every chapter, student activities, topics for group discussion, student assignment and review questions are given to facilitate revision. To assist the readers traverse through the chapters without missing crucial details, the chapters are provided with a number of side boxes that collect the essence of important sections. PowerPoint slides are available for the instructors who adopt this textbook. TARGET

*Behavioral Finance and Your Portfolio* Michael M. Pompian, 2021-04-19 Become a more strategic and successful investor by identifying the biases impacting your decision making In Behavioral Finance and

Your Portfolio acclaimed investment advisor and author Michael M Pompian delivers an insightful and thorough guide to countering the negative effect of cognitive and behavioral biases on your financial decisions You ll learn about the Big Five behavioral biases and how they re reducing your returns and leading to unwanted and unnecessary costs in your portfolio Designed for investors who are serious about maximizing their gains in this book you ll discover how to Take control of your decision making even when challenging markets push greed and fear to intolerable levels Reflect on how to make investment decisions using data backed and substantiated information instead of emotion and bias Counter deep seated biases like loss aversion hindsight and overconfidence with self awareness and hard facts Identify your personal investment psychology profile which you can use to inform your future financial decision making Behavioral Finance and Your Portfolio was created for individual investors but will also earn a place in the libraries of financial advisors planners and portfolio managers who are determined to counteract the less principled and data driven aspects of their decision making *Behavioral Finance* Hersh Shefrin,2001 **The Effect of Founder-CEO Overconfidence on Merger Premium** Christoph Meyer,2015-05-08 Master s Thesis from the year 2014 in the subject Business economics Investment and Finance grade 1 0 Heriot Watt University Edinburgh Finance course Corporate Finance language English abstract Theoretical and empirical research has indicated that overconfidence affects merger decision making and merger premium However founder CEOs have not been subject of such a study yet This lack is particular surprising when considering the differences between founder and manager CEOs as well as the media attention of founder CEOs The present dissertation aims to fill the research gap through investigating the effect of founder CEO overconfidence on merger premium in the high tech industry Moreover this dissertation aims to extend the literature by including target CEO overconfidence and studying the impact on merger premium when both acquirer and target CEO are overconfident By studying founder CEOs this dissertation also aims to establish the effectiveness of founders as CEOs The resource based perspective argues that while founders help in the early years of the company they become less effective as the firm evolves since they lack the necessary management skills Design methodology approach Using ordinary least square OLS technique this study investigates the effects of implemented factors in determining the merger premium paid in high tech acquisitions A sample consisting of 245 acquisitions in the high tech industry of 124 CEOs during a 19 year period 1995 to 2013 has been observed In order to test the founder CEO effects this dissertation develops a matched sample approach of 62 founder CEOs and 62 manager CEOs This study shows a strong relationship between CEO overconfidence and acquisitions premium paid The results suggest that the CEO overconfidence may provide an explanation for the well rehearsed overpayment problem An additional analysis indicates that the highest premium is paid when combined acquiring and tar get firm CEO overconfidence exist The dissertation also shows that founder CEOs pay higher premia than manager CEOs in the high tech industry It has been proven that founder CEOs decisions are more independent from interventions of the board of directors and that founder CEO overpayment is not

dependent on the company's size or relatedness of mergers. The findings are reliable as the results remain constant for applied robustness tests.

Behavioural Finance Sujata Kapoor, Jaya Mamta Prosad, 2019-06-27. A comprehensive and well-structured textbook that provides a concrete foundation of the most essential elements of behavioural finance and related biases in a simple manner. Designed as a core textbook for the students of finance, Behavioural Finance discusses the theoretical concepts of investment behaviour in the dynamic environment of financial markets. It explains the role and impact of psychological biases and sociological influences underlying the financial behaviour of both individual and institutional investors. Through the use of case studies and real-life examples, primarily from emerging economies like India, the book explores the psychology of individual investors and market experts such as financial analysts and portfolio managers. It discusses how key market players make decisions and shows that every behavioural inconsistency can cumulate to market anomalies. The highlight of this book is the inclusion of contemporary issues such as the role of weather, emotional state of mind, religion, and culture in investment decisions, and the emphasis on upcoming areas in this discipline such as neurofinance and emotional finance.

**Key Features:**
