

# Implicit two-derivative Runge–Kutta collocation methods for systems of initial value problems

D.G. Yakubu<sup>\*</sup>, A.M. Kwami

*Department of Mathematical Sciences, Abubakar Tafawa Balewa University, Bauchi, Nigeria*

Received 9 August 2014; received in revised form 16 December 2014; accepted 14 January 2015

## Abstract

We introduce a new class of implicit two-derivative Runge–Kutta collocation methods designed for the numerical solution of systems of equations and show how they have been implemented in an efficient parallel computing environment. We also discuss the difficulty associated with large systems and how, in this case, one must take advantage of the second derivative terms in the methods. We consider two modified versions of the methods which are suitable for solving stable systems. The first modification involves the introduction of collocation at the two end points of the integration interval in addition to the Gaussian interior collocation points and the second involves the introduction of a different class of basic second derivative methods. With these modifications, fewer function evaluations per step are achieved, resulting into methods that are cheap and easy to implement. The stability properties of these methods are investigated and numerical results are given for each of the modified version to illustrate the computational efficiency of the modified methods.

## 1. Introduction

The primary aim of this paper is to introduce a new class of implicit two-derivative Runge–Kutta (TDRK) collocation methods for the numerical solution of initial value problems for systems of ordinary differential equations (ODEs),

$$\begin{cases} y'(x) = f(x, y(x)), & x \in [x_0, T], \\ y(0) = y(x_0). \end{cases} \quad (1)$$

Here  $y : [x_0, T] \rightarrow \mathbb{R}^d$  and  $f : [x_0, T] \times \mathbb{R}^d \rightarrow \mathbb{R}^d$  is assumed to be sufficiently smooth and  $y_0 \in \mathbb{R}^d$  is the given initial value. Let  $h > 0$  be a constant stepsize and define the grid by  $x_n = x_0 + nh$ ,  $n = 0, 1, 2, \dots, N$  where  $Nh = T - x_0$  and a set of equally spaced points on the integration interval is defined by  $x_0 < x_1 < x_2 < \dots < x_{n+1} = T$ .

Peer review under responsibility of Nigerian Mathematical Society.

## **Implicit Two Derivative Runge Kutta Collocation Methods:**

*Solving Ordinary Differential Equations I* Ernst Hairer, Syvert P. Nørsett, Gerhard Wanner, 2008-04-03 This book deals with methods for solving nonstiff ordinary differential equations The first chapter describes the historical development of the classical theory and the second chapter includes a modern treatment of Runge Kutta and extrapolation methods Chapter three begins with the classical theory of multistep methods and concludes with the theory of general linear methods The reader will benefit from many illustrations a historical and didactic approach and computer programs which help him/her learn to solve all kinds of ordinary differential equations This new edition has been rewritten and new material has been included

*Scientific Computing with Ordinary Differential Equations* Peter Deuflhard, Folkmar Bornemann, 2012-12-06 Mathematics is playing an ever more important role in the physical and biological sciences provoking a blurring of boundaries between scientific disciplines and a resurgence of interest in the modern as well as the classical techniques of applied mathematics This renewal of interest both in research and teaching has led to the establishment of the series Texts in Applied Mathematics TAM The development of new courses is a natural consequence of a high level of excitement on the research frontier as newer techniques such as numerical and symbolic computer systems dynamical systems and chaos mix with and reinforce the traditional methods of applied mathematics Thus the purpose of this textbook series is to meet the current and future needs of these advances and to encourage the teaching of new courses TAM will publish textbooks suitable for use in advanced undergraduate and beginning graduate courses and will complement the Applied Mathematical Sciences AMS series which will focus on advanced textbooks and research level monographs

**Exponential Fitting** Liviu Gr. Ixaru, Guido Vanden Berghe, 2004-05-26 Exponential Fitting is a procedure for an efficient numerical approach of functions consisting of weighted sums of exponential trigonometric or hyperbolic functions with slowly varying weight functions This book is the first one devoted to this subject Operations on the functions described above like numerical differentiation quadrature interpolation or solving ordinary differential equations whose solution is of this type are of real interest nowadays in many phenomena as oscillations vibrations rotations or wave propagation The authors studied the field for many years and contributed to it Since the total number of papers accumulated so far in this field exceeds 200 and the fact that these papers are spread over journals with various profiles such as applied mathematics computer science computational physics and chemistry it was time to compact and to systematically present this vast material In this book a series of aspects is covered ranging from the theory of the procedure up to direct applications and sometimes including ready to use programs The book can also be used as a textbook for graduate students

**State Estimation for Nonlinear Continuous-Discrete Stochastic Systems** Gennady Yu. Kulikov, Maria V. Kulikova, 2024-09-06 This book addresses the problem of accurate state estimation in nonlinear continuous time stochastic models with additive noise and discrete measurements Its main focus is on numerical aspects of computation of the expectation and covariance in Kalman like filters

rather than on statistical properties determining a model of the system state Nevertheless it provides the sound theoretical background and covers all contemporary state estimation techniques beginning at the celebrated Kalman filter including its versions extended to nonlinear stochastic models and till the most advanced universal Gaussian filters with deterministically sampled mean and covariance In particular the authors demonstrate that when applying such filtering procedures to stochastic models with strong nonlinearities the use of adaptive ordinary differential equation solvers with automatic local and global error control facilities allows the discretization error and consequently the state estimation error to be reduced considerably For achieving that the variable stepsize methods with automatic error regulation and stepsize selection mechanisms are applied to treating moment differential equations arisen The implemented discretization error reduction makes the self adaptive nonlinear Gaussian filtering algorithms more suitable for application and leads to the novel notion of accurate state estimation The book also discusses accurate state estimation in mathematical models with sparse measurements Of special interest in this regard it provides a means for treating stiff stochastic systems which often encountered in applied science and engineering being exemplified by the Van der Pol oscillator in electrical engineering and the Oregonator model of chemical kinetics Square root implementations of all Kalman like filters considered and explored in this book for state estimation in Ill conditioned continuous discrete stochastic systems attract the authors particular attention This book covers both theoretical and applied aspects of numerical integration methods including the concepts of approximation convergence stiffness as well as of local and global errors suitably for applied scientists and engineers Such methods serve as a basis for the development of accurate continuous discrete extended unscented cubature and many other Kalman filtering algorithms including the universal Gaussian methods with deterministically sampled expectation and covariance as well as their mixed type versions The state estimation procedures in this book are presented in the fashion of complete pseudo codes which are ready for implementation and use in MATLAB or in any other computation platform These are examined numerically and shown to outperform traditional variants of the Kalman like filters in practical prediction filtering tasks including state estimations of stiff and or ill conditioned continuous discrete nonlinear stochastic systems

*Stability of Runge-Kutta Methods for Stiff Nonlinear Differential Equations* Kees Dekker, Jan G. Verwer, 1984 The object of this monograph is to present a unified account of all developments concerning stability of Runge Kutta methods for stiff nonlinear differential equations which began in 1975 with Dahlquist's G stability paper and Butcher's B stability paper Designed for the reader with a background in numerical analysis the book contains numerous theoretical and practical results aimed at giving insight into the treatment of nonlinear problems

**The Princeton Companion to Applied Mathematics** Nicholas J. Higham, Mark R. Dennis, Paul Glendinning, Paul A. Martin, Fadil Santosa, Jared Tanner, 2015-09-15 The must have compendium on applied mathematics This is the most authoritative and accessible single volume reference book on applied mathematics Featuring numerous entries by leading experts and organized thematically it introduces

readers to applied mathematics and its uses explains key concepts describes important equations laws and functions looks at exciting areas of research covers modeling and simulation explores areas of application and more Modeled on the popular Princeton Companion to Mathematics this volume is an indispensable resource for undergraduate and graduate students researchers and practitioners in other disciplines seeking a user friendly reference book on applied mathematics Features nearly 200 entries organized thematically and written by an international team of distinguished contributors Presents the major ideas and branches of applied mathematics in a clear and accessible way Explains important mathematical concepts methods equations and applications Introduces the language of applied mathematics and the goals of applied mathematical research Gives a wide range of examples of mathematical modeling Covers continuum mechanics dynamical systems numerical analysis discrete and combinatorial mathematics mathematical physics and much more Explores the connections between applied mathematics and other disciplines Includes suggestions for further reading cross references and a comprehensive index

Proceedings of the Summer Computer Simulation Conference ,1987 Applied Mechanics Reviews ,1989 *Proceedings of the Third International Conference on Computing, Mathematics and Statistics (iCMS2017)* Liew-Kee Kor,Abd-Razak Ahmad,Zanariah Idrus,Kamarul Ariffin Mansor,2019-03-27 This book is a product of the Third International Conference on Computing Mathematics and Statistics iCMS2017 to be held in Langkawi in November 2017 It is divided into four sections according to the thrust areas Computer Science Mathematics Statistics and Multidisciplinary Applications All sections sought to confront current issues that society faces today The book brings collectively quantitative as well as qualitative research methods that are also suitable for future research undertakings Researchers in Computer Science Mathematics and Statistics can use this book as a sourcebook to enrich their research works

## Decoding **Implicit Two Derivative Runge Kutta Collocation Methods**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its power to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Implicit Two Derivative Runge Kutta Collocation Methods**," a mesmerizing literary creation penned with a celebrated wordsmith, readers embark on an enlightening odyssey, unraveling the intricate significance of language and its enduring affect our lives. In this appraisal, we shall explore the book is central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.

### **Implicit Two Derivative Runge Kutta Collocation Methods Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Implicit Two Derivative Runge Kutta Collocation Methods PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing

individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Implicit Two Derivative Runge Kutta Collocation Methods PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Implicit Two Derivative Runge Kutta Collocation Methods free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About Implicit Two Derivative Runge Kutta Collocation Methods Books**

1. Where can I buy Implicit Two Derivative Runge Kutta Collocation Methods books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Implicit Two Derivative Runge Kutta Collocation Methods book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Implicit Two Derivative Runge Kutta Collocation Methods books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean

- hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
  6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
  7. What are Implicit Two Derivative Runge Kutta Collocation Methods audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
  8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
  9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
  10. Can I read Implicit Two Derivative Runge Kutta Collocation Methods books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
