Design Basics is the essential guide to this basic but difficult to master aspect of interior design. Offering fundamental concepts and prescriptive techniques in a highly visual format, this book provides clear practical guidance on utilizing the latest in lighting techniques and technology to showcase a space without sacrificing utility. Covering more than 25 different design scenarios with in-depth rationale for proposed solutions, this book provides insightful distribution diagrams, floor plans, and details for lighting installation and construction. Real-world case studies illustrate lighting design in residential, commercial, healthcare, education, and hospitality settings, and skill-building exercises offer practice for real-world projects as well as NCIDQ and NCARB exam preparation. This new third edition includes new instructor support materials, coverage of computer calculation software, and in-depth discussion on the latest in LED lighting. Lighting is changing both in the technology itself and in the way a designer must approach it. This book provides immersive instruction through real-world settings and practical guidance suited for immediate application in everyday projects. Get up to date on the latest methods and technology for lighting design. Examine more than 25 design scenarios for different types of spaces. Complete exercises to hone your skills or prepare for the NCIDQ or NCARB. Create simple lighting designs and collaborate with architects on complex projects. Lighting can make or break a space. Improper lighting lends a space an uncomfortable feel, can induce headaches or eyestrain, and can even be hazardous, but thoughtfully designed and executed lighting adds that extra element so often missing from typical spaces. Lighting Design Basics shows you how to elevate any space through the fundamental tools and concepts of professional lighting design.

Interior Lighting Darren Du, 2011. Lighting is the most effective creator of ambience in the interior. Since lighting was introduced into homes, it has played the most important role in our daily life. Lighting has become an integral part of interior design. It enriches our spaces and affects our visual and psychological experience, even our working efficiency. Moreover, lighting can change our perception of a space. Appropriate lighting design can personalize your space and establish a charm of your own. In this book, lighting design is approached from three perspectives: lighting of interior spaces, lighting as interior decoration, and lighting as interior atmosphere. With an abundance of pictures and detailed introductions, you can see the role that lighting plays in interior design and the effects it can bring. The book will be an inspiring reference for interior designers and other readers alike.
