Date _____

I was counting down the seconds as I watched the clock. I didn't even hear what the teacher was saying. All I knew was I was ready to leave. It was Friday. I heard some chatter in the background, but I didn't listen. All I could think about was how good the food would be that night. I would order a thick juicy hamburger and some fries with extra ketchup. All of the waiters loved me at Jake's Hamburger. Stop. My parents had promised to take me there. Finally, the bell rang. I jumped up and ran to my locker. A lot of papers flew out. I just stuffed them back in, grabbed my things, and ran down the hallway. "Sarah," I heard my teacher call, "Don't forget about" as I ran out of the door. On Monday, I was back at school. "Oh, no, we are having a test," I thought. How could I have known? The teacher handed out the tests. I didn't know any of the answers to the multiplication or division problems.

1. Where was I when I was watching the clock?

2. Where were my parents taking me that night?

3. What was Sarah's teacher probably trying to tell her?

4. Do you think Sarah did well on the test? Why or why not?

5. What class was Sarah probably in when she was watching the clock?

Dominic Wyse, Vivienne Baumfield, Nicole Mockler, Martin Reardon, 2025-06-19 One of the most pressing topics worldwide is how we can improve education to enhance people's life chances. The BERA Sage Handbook of Research Informed Education Practice and Policy 2 Vol offers an in depth exploration of the ways in which education research intersects with and can lead to improvements in education. Literacy and Deafness Peter V. Paul, 1998 The development of literacy reading and writing skills is important for success in school and mainstream society. Some might argue however that literacy skills are not necessary for the development of literate thought, the ability to think critically and reflectively. This book provides some insights into the relationship between literacy and literate thought. In the first few chapters, readers are introduced to major perspectives on literacy, the role of teaching deafness, research on both hearing and deaf students, and the development of writing on these students. It continues with an overview of the major tenets of the literary critical perspective, an overview of the theory and research and teaching literacy to ESL students. The book winds down with reform, assessment, and the argument that educators need to consider alternative measures of achievement. All educators, but especially those with hearing impaired students, deaf interpreters, and speech pathologists. *Summary of Investigations Relating to Reading* International Reading
