New Body Politics Therí A. Pickens, 2014-02-05 In the increasingly multi racial and multi ethnic American landscape of the present understanding and bridging dynamic cross cultural conversations about social and political concerns becomes a complicated humanistic project How do everyday embodied experiences transform from being anecdotal to having social and political significance What can the experience of corporeality offer social and political discourse And how does that discourse change when those bodies belong to Arab Americans and African Americans Ther A Pickens discusses a range of literary cultural and archival material where narratives emphasize embodied experience to examine how these experiences constitute Arab Americans and African Americans as social and political subjects Pickens argues that Arab American and African American narratives rely on the body s fragility rather than its exceptional strength or emotion to create urgent social and political critiques The creators of these narratives find potential in mundane experiences such as breathing touch illness pain and death Each chapter in this book focuses on one of these everyday embodied experiences and examines how authors mobilize that fragility to create social and political commentary Pickens discusses how the authors focus on quotidian experiences complicates their critiques of the nation state domestic and international politics exile cultural mores and the medical establishment *New Body Politics* participates in a vibrant interdisciplinary conversation about cross ethnic studies American literature and Arab American literature Using intercultural analysis Pickens explores issues of the body and representation that will be relevant to fields as varied as Political Science African American Studies Arab American Studies and Disability Studies

Modern Arab American Fiction Steven Salaita, 2011-04-13 Within the spectrum of American literary traditions Arab American literature is relatively new Writing produced by Americans of Arab origin is mainly a product of the twentieth century and only started to flourish in the past thirty years While this young but thriving literature varies widely in content and style it emerges from a common community and within a

specific historical political and cultural context In *Modern Arab American Fiction* Salaita maps out the landscape of this genre as he details rather than defines the last century of Arab American fiction Exploring the works of such best selling authors as Rabih Alameddine Mohja Kahf Laila Halaby Diana Abu Jaber Alicia Erian and Randa Jarrar Salaita highlights the development of each author's writing and how each has influenced Arab American fiction He examines common themes including the Israel Palestine conflict the Lebanese Civil War of 1975-90 the representation and practice of Islam in the United States social issues such as gender and national identity in Arab cultures and the various identities that come with being Arab American Combining the accessibility of a primer with in depth critical analysis *Modern Arab American Fiction* is suitable for a broad audience those unfamiliar with the subject area as well as scholars of the literature **Little Odessa** Joseph Koenig, 1989-09-13 **Towelhead** Alicia Erian, 2008-07-15 Sent to live with her strict Lebanese father in Texas upon the outbreak of the Gulf War Arab American teen Jasira endures racial taunts from her new classmates and enters into a dangerously exploitative relationship with a bigoted Army reservist Reissue 75 000 first printing A Warner Independent film directed by Alan Ball releasing August 2008 starring Aaron Eckhart Toni Collette Maria Bello General Fiction **Towelhead** Alicia Erian, 2007 [The Book Review Digest](#), 2005 **Open Season** Ben Crump, 2019-10-15 A deft and unflinching exposé on America's treatment of people of color from the attorney who took on the George Floyd and Breonna Taylor cases Kenya Barris creator of *Black-ish* As seen on CBS This Morning award winning attorney Ben Crump exposes a heinous truth in *Open Season* Whether with a bullet or a lengthy prison sentence America is killing black people and justifying it legally While some deaths make headlines most are personal tragedies suffered within families and communities Worse these killings are done one person at a time so as not to raise alarm While it is much more difficult to justify killing many people at once in dramatic fashion the result is the same genocide Taking on such high profile cases as George Floyd Ahmaud Arbery Breonna Taylor Trayvon Martin Michael Brown and a host of others Crump witnessed the disparities within the American legal system firsthand and learned it is dangerous to be a black man in America and that the justice system indeed only protects wealthy white men In this enlightening and enthralling work he shows that there is a persistent prevailing and destructive mindset regarding colored people that is rooted in our history as a slaveowning nation This biased attitude has given rise to mass incarceration voter disenfranchisement unequal educational opportunities disparate health care practices job and housing discrimination police brutality and an unequal justice system And all mask the silent and ongoing systematic killing of people of color *Open Season* is more than Crump's incredible mission to preserve justice it is a call to action for Americans to begin living up to the promise to protect the rights of its citizens equally and without question **The Advocate**, 2008-07 **The Oxford Dictionary of New Words** Elizabeth M.
